NICOBAR

Nicobar speaks a modern Indian design language with carefully crafted products made of natural materials, tropical sunshine and a forward-looking aesthetic. With the evocative new collection, Luna, Nicobar weaves its magic for Nilaya - a celebration of the power of the moon and a delight to the senses.

Luna

Glowing in the velvet night, hanging, pearl-like, over the oceans, the moon has long been a subject of fantasy. Its far side forever invisible, it is the symbol of the unknown.

With Nilaya & Nicobar a new moon rises. Luna. A collection of prints that pays tribute to the connection between man and the moon. Magic and mystery surround this celestial body, a lifelong companion of the earth. There is no moon without the sun. And so we see her too - bringing the moon out from darkness so we can see its ethereal beauty and fall in love over and over again.

Come, explore her wondrous sights and dream-like moods.

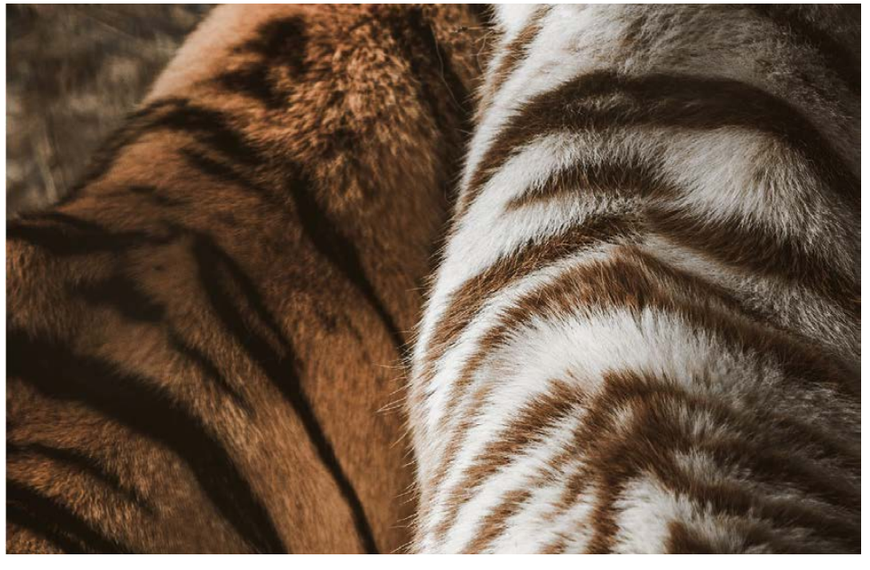
The moon affects everything – tidal forces, our moods and even dragonflies. Glittering, playful - moonlit - the world is animated under her watch.



MOONRISE ISLAND

Deity. Planet. Mystical force. The moon has been interpreted in many ways. Here it presides over a sultry, swaying tropical paradise where its rhythms affect all living beings - from lush palm trees with fanning branches to regal tigers and parading elephants to creatures as tiny as flitting dragonflies.

Every phase of the moon is enchanting, mystical and magical. But she doesn't reside in the skies alone - the sun lights up her eternal beauty - for us to see her and fall in love with her again and again.

PETALS IN THE SKY

The moon climbs the skies revealing all her phases while other heavenly bodies gather around her and stars dot the horizon. We see the sun too, by whose light all this is visible. Delicate half moons look like drifting petals and a soft, ethereal scene is created.

Life in the Indus Valley was measured according to the phases of the moon. Ever-present and observable, the moon offered these ancient people a temporal guide. Indus script and moon signs with gold highlights takes us back to this faraway time.

INDUS MOON

Moon signs and a mosaic of motifs inspired by Indus Valley scripts combine to create a powerful design.
