ESSESS
BATH FITTINGS

THE 2022 BATHROOM COLLECTION.
FROM THE HOUSE OF ASIAN PAINTS.

The Asian Paints Bath Experience. Built to make the bathroom your home's most stunning statement.

Built on the foundation of Asia's fourth largest paint company, Asian Paints Bath Division (APBD) is an extension of our legacy into the world of bathrooms.

Each product offered by Asian Paints Bath Division - Royale, Bathsense and Ess Ess- is designed with the intent of giving customers not just a bathroom, but a bathroom experience.

From extraordinary designs and features to reliable customer service initiatives, proven by numerous awards and certifications, Asian Paints Bath Division is the name you can trust. Consumers will now be treated to the Asian Paints experience in its entirety.

.....

BATH DIVISION

Welcome to the Asian Paints Bath Division Collection

A truly timeless collection of elegant bathroom products, created for a truly luxurious bathroom experience.

A premium collection of stunning bath fittings and sanitary ware with unique features that aim to make your bathroom life easy and effortless.

A fabulous collection of bath products that are both ultra-modern and economical.

ESSESS
 BATH FITTINGS
 — by —

 asianpaints

Lavish bathroom experiences, built with truly unique designs.

Twist

Unique twist in the product body.

Gold Rush

Helical handle with twisting body.

Springboard

Handle starts from the surface of the spout.

Unique flow, with the advantage of stunning designs.

Overhead, 3-in-1 function shower flow
(Normal, Turbo, Massage).

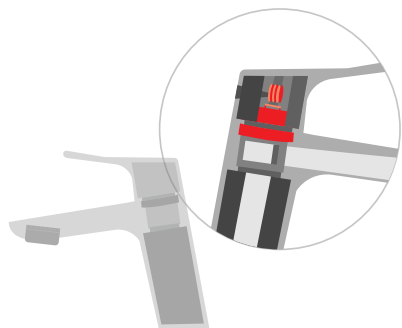

Showers with mist flow.

Halo showers

Winner of the Red Dot Award in Design.

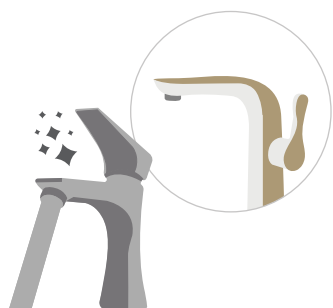

3/4 th inch spindles are used in Royale Bathroom products

Spindles are 26 mm in diameter compared to the industry standard of 20 mm. This ensures abundant flow, even at lower pressures.

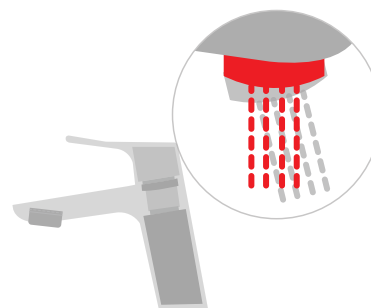

Seamless extended products in Royale Bathrooms

Even tall products have seamless bodies as compared to fused bodies, giving a premium look and finish.

Better plating

Gold plating done using PVD technology for high durability. All products have higher chrome plating thickness for better finish and increased life of plating.

Unique aerators

Tilttable aerator in Royale basin products, to control the direction of the flow.

Unique curved designs, built for maximum functionality.

Invictus

Fusion of curved body and flat spout.

Altius

Sturdy design for a solid performance.

Theta

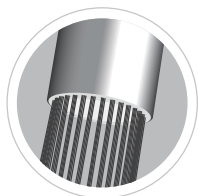

Unique angled design for easier handling.

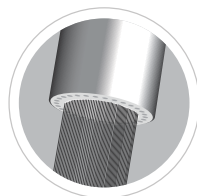

Self-cleaning shower

Auto cleans when flow is switched off
flow is changed in multi-flow shower.

CP FEATURES

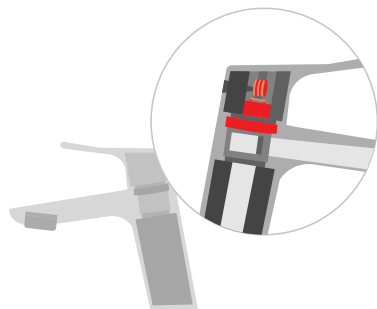

Shower Flow

Foam Flow

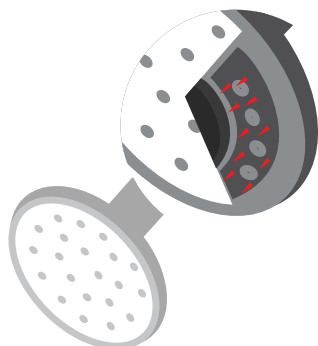

Dual flow aerator

Water-saving aerator with the option to switch between foam flow and shower flow.

3/4 th inch spindles are used in all Bathsense products

Spindles are 26 mm in diameter compared to the industry standard of 20 mm. This ensures abundant flow, even at lower pressures.

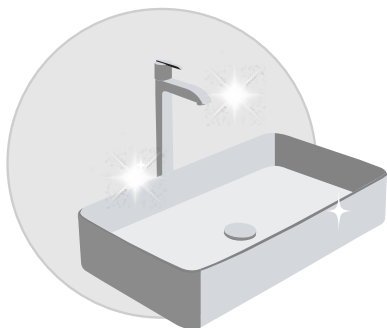

Bathsense self-cleaning showers

Autoclean themselves when the water is switched off.

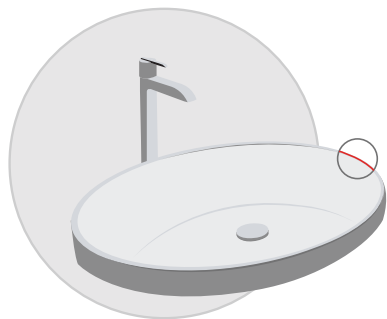

Solve the problems of blocked nozzles, especially in areas with hard water.

SANWARE FEATURES

Sanitary ware that always stays clean

Anti-bacterial glaze ensures hygiene and rimless water closets and basins making cleaning effortless.

Thin rim basin

Thin rim basins give a sleek and minimalistic look, adding premiumness to your bathroom.

Basins with greater depth

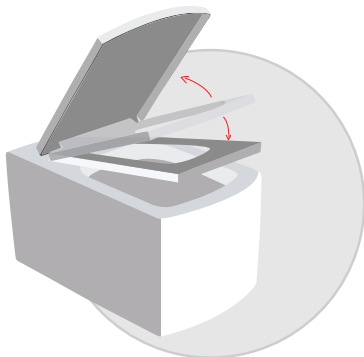

Basins are designed with greater depth, the additional extra inches avoids water splashes out of the basin.

SANWARE FEATURES

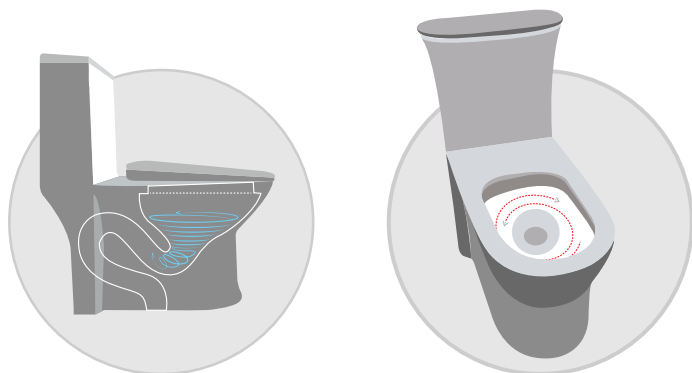

Rimless water closet

Rimless designs ensures there are no hidden spaces, thus providing an easy cleaning option for hygienic bathroom

Strong and silent seat covers

Feather-close durable seat covers in all closets that give customers a noise-free experience, and quality that is truly long-lasting.

Flushing techniques that ensure that once is enough

Innovative flushing techniques like 4D flushing, siphonic flushing and tornado flushing.

Scan the QR Code to know more

Tornado Flushing

Siphonic Flushing

4D Flushing

SANWARE FEATURES

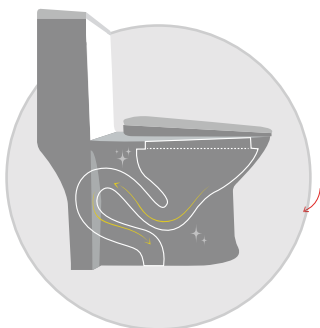

Blind Installation

Completely concealed without any side hole for a seamless, elegant-looking bathroom.

Click release seat cover

Click release UF seat cover ensures easier cleaning.

Glazed trap for improved flushing

This type of trapway allows a smoother exit path for water and waste, thus reducing the number of dreaded clogs that toilets experience.

Ergonomic designs and good performance, backed by years of durability, that are also the perfect value for money.

Deon

Modern designs that give a futuristic feel, perfect for today's urban lifestyles.

New Echo

A truly elegant bath experience that is also budget-friendly.

Primus

Equipped with a flat & modern handle for sleek design and economical value.

Proton

Amazing design that comes with excellent performance.

Options for different water conditions

The Amplus and Robus ranges have durable half-turn spindles that give truly memorable performances.

HANDS-FREE PRODUCTS

Innovative technology

Infrared sensors with a sensing distance of up to 6 inches that turn on and off with just a wave of your hand.

Sleek design

Beautifully designed faucets and closets that blend in with the aesthetics of the bathroom.

Low voltage alarm

In-built alarm to indicate when the batteries need to be charged. Comes with a battery life of up to 60,000 cycles.

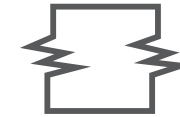

Auto cut-off

If water flow is on for 60 seconds continuously, the faucet automatically shuts off the flow.

Saves water

Through its innovative sensor technology, it conserves more water than ordinary taps.

Anti-Interference

No interference if multiple sets working at same time/other electrical appliances

Dual Sensors

Enabled with side and bottom sensor

Shock Resistant

THERMOSTATIC DIVERTER

WHY SHOULD YOU CHOOSE OUR THERMOSTATIC SHOWERS FOR YOUR BATHROOMS?

● **Fully metal upper plate and handles**

To enhance quality and endurance

● **Flow regulator**

For a better showering experience and optimized control on flow rate.

It's the only thermostatic diverter in its class to have this unique function

Cartridge features

Life > 80,000 cycles (nearly 15 years)

Safety features:

- Safety button as a design feature of handle
- Cartridge shut off in case of cold water failure
- Calibrated for 38 degrees at center position and max temperature limited to 45 degrees through lock in sleeve

Higher resistance to scaling due to high grade polymer used in cartridge

INCREDIBLE INSIDE OUT.

3/4th inch inlets and outlets

For better flow and ease of installation

35 mm high flow spindle

For enhanced flow and control

High flow cartridge

For improved flow

Thermostatic cartridge

Powered by world-class technology from Vernet and especially tailor-made for India, this thermostatic cartridge delivers a safe experience and higher flow.

FLUSH YOUR WORRIES AWAY.

Introducing Flush Valves from Asian Paints Bath Essentials
for a worry-free flushing experience.

Brass Flushing Kit:

Internal components like u-seal nut, piston-in-brass to ensure no leakage even at high pressure

Consistency:

Spring support to ensure consistent on/off cycle

Durability:

The product conforms to 1.75L life cycles even in water conditions with high TDS (1200 mg/L)

Warranty: 10 years

Less SKUs, more choices:

Body and upper sold separately to let the customer choose their own design

THE SMART KITCHEN SOLUTION.

MATT FINISH | GLOSSY FINISH

Kitchen Sinks, although often ignored, are perhaps the most important ingredient of a kitchen. They give the dishes a place to wash up and get ready for the next serving. Bathsense brings you a wide range of kitchen sinks designed to make your kitchen smarter and more efficient.

CERTIFICATIONS

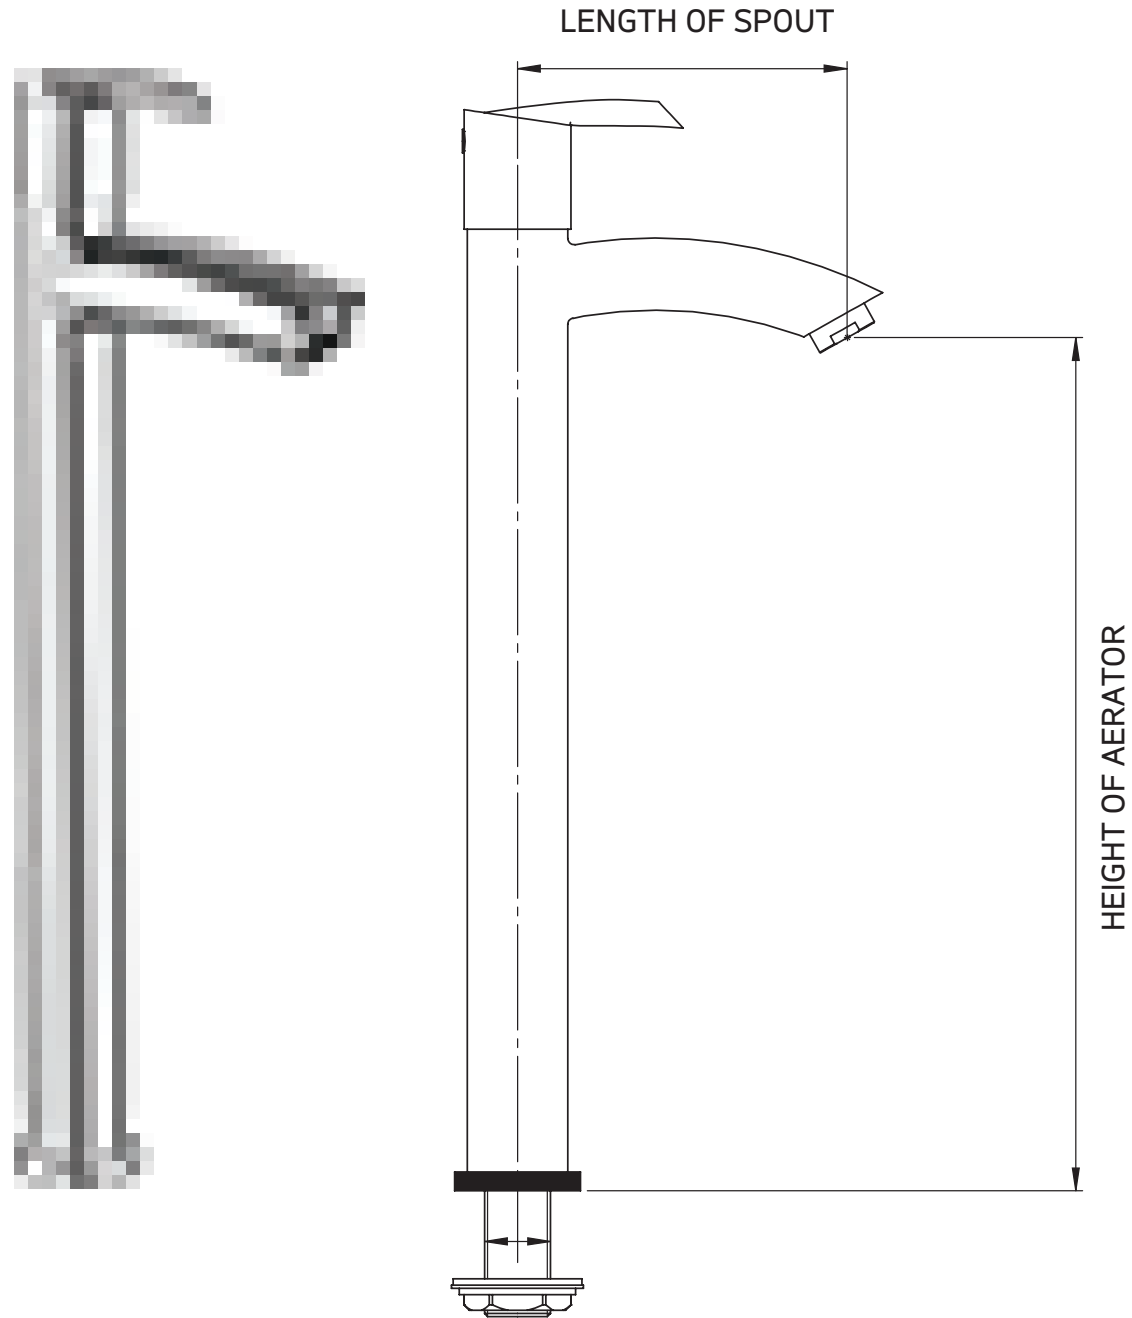

To validate the standards we maintain, the Asian Paints Bath Division's After-sales service is certified by ISO 9001:2015.

It is also a certified member of the Indian Green Buildings Council – a community of entities in the construction industry with a commitment towards maximum water conservation through the manufacturing of water-saving products.

The Asian Paints Bath Division has acquired '**Water Efficient Products-India**' (**WEP-I**) and '**Green**' certification for 69 products from **IAPMO** (The International Association of Plumbing and Mechanical Officials). The products have been awarded the highest possible '**3 star**' rating, qualifying them to be supplied to IGBC Platinum rated buildings.

Reference Image to illustrate length of spout and height of aerator for tall bodies.

Installation Guidelines

Asian Paints Bath Products continually interacts with consumers and strives to make its products consumer-friendly. The company's trained staff and executives maintain a direct interface with consumers, educating them about product quality, convenience and maintenance. Asian Paints Royale Bathrooms also believes that consumers must get the best out of its products. It has evolved a set of consumer guidelines, which if followed, ensure optimum and trouble-free performance with enhanced durability of Asian Paints Royale Bathroom products for years to come.

During Installation

- Use a 25 mm pipeline instead of 20 mm for optimal water flow. As far as possible, lay the pipelines straight and vertical .
- Keep the number of bends in the pipelines to a minimum to maintain adequate water pressure. All supply lines must have vent pipes, which prevent vacuum formation and ensure that water flows smoothly.
- Maintain a centre-to-centre distance of 165 mm for both Hot and Cold inlets on all wall-mounted fixtures. This ensures a fuss-free, easy installation of the wall mixers.
- Place the outlet point in the overhead tank at least 2.5 cm above the ground level of the tank. This prevents the flow of foreign particles, sand, etc., into the water supply and the fittings, and prevents possible damage to working parts.

Post Installation

- Cover the tap polypacks before or after their installation until they are ready for actual use to protect the fine finish from dirt, stains and other damage.
- Do not use harsh cleaning agents containing abrasives and acids. Instead, use a soft sponge or wet cloth with soapy water/diluted vinegar to protect the colour finish.
- Clean the aerators at regular intervals for a perfect flow of water from the fittings. To clean the aerator, remove it, knock out the silver insert and rinse thoroughly with water.
- Clean the overhead tank thoroughly before the supply starts. It is suggested that the overhead tank must be cleaned at regular intervals to avoid deposition of foreign particles. To prevent any foreign material from passing through the tap, use a mesh or jali.

Maintenance Guide

DOs

- Clean the fitting with just a little soap or mild detergent (such as dish washing soap) and a soft dampened sponge or cloth. Then simply rinse off and wipe dry. You can prevent lime scale by drying the fitting after each use.
- Always test your cleaning solution on an inconspicuous area on the product before applying on the entire surface.
- The ideal cleaning technique is to always blot dry any water from metal surfaces. Allowing water to evaporate on metal will form water deposits.
- It is important to use a dabbing action to dry metal, not an abrasive or rubbing action. Cleaning with a damp sponge and buff drying should keep your faucet looking beautiful and spotless.

DON'Ts

- Do not use any abrasive sponges or scouring agents for cleaning.
- We also advise against the use of cleaning agents containing ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. Most toilet cleaning products have high acidic content which can damage the chrome finish, leaving it dull and scratched; hence they should be strictly avoided.

Claims and Repairs

To submit and/or avail a warranty claim, please contact Customer Service at bathsolutions@asianpaints.com. Telephonic enquiries shall be directed to Asian Paints helpline toll free number at 1800-266-2079 between 09.30 Hrs. and 18.00 Hrs. during Monday to Saturday, excluding Sunday, Public and National holidays.

To get in touch with us or to simply know more, do visit our website by scanning the QR code.

Warranty Details

Asian Paints Limited ("Company") products mentioned in the below table used in residential and nonresidential segments (as specified in conditions of usage) are warranted to be free of defects in the material and workmanship for the period set forth in the warranty coverage table as detailed below, commencing from the date of sale of Asian Paints Limited Faucets products to the original purchaser subject to certain terms and conditions as appearing hereinafter.

*Drain Valve, Fill valve, Angle cock etc. in case of both concealed and exposed cisterns

**Applicable to finish and plating; Functional warranty same as Cistern body

***Does not cover cartridges and functional components, and colour fading

#Applies to the Wooden cabinets and doors, Functional Warranty for hardware as specified in the warranty card of the individual product

Conditions of usage

1. This warranty is valid only if the product (other than Ceramics) is used under the specified Limits of water conditions listed as below

- Pressure between 0.5 and 5 bar
- Total Dissolved Solids: Below 850 PPM
- Total hardness: Below 400 PPM
- pH: between 6.5 and 8.5
- Total Suspended Solids: Below 30 mg/L

2. For Ceramics,

- the recommended flushing system for Wall hung is Concealed Cisterns and EWC is PVC Cisterns. If any other flushing system like Flush Valve is used, the recommended working pressure is ≥ 2 bar.
- For flush tank of One piece closets, minimum water level should be set at 6 liters
- Improper flushing caused due to flushing system or pressure not as per recommendations not covered under warranty

3. In addition to the generic conditions as in '1' above, the following additional conditions apply to specific products

3a. Showers:

- Product replacement claims caused by Nozzle blockage due to deposition shall not be covered under warranty (other than in case of self-cleaning showers)
- Warranty will be valid only if the shower is used with flow restrictor provided with the product

3b. **Health Faucet:** Bursting of the hose pipe is not covered under warranty

3c. Sensor Based Products:

- Warranty is limited to manufacturing defects
- Warranty does not cover damages to the product due to Voltage fluctuations, Water ingress due to improper installation/handling etc.
- Change of battery in case of products with DC supply is not covered under warranty

3d. Extension Nipples:

- Warranty is valid only if the product is maintained in the original dimensions and surface condition in which it was supplied in.
- Length of the nipple to be used should be selected in accordance with the installation requirements.
- Thread of the nipple should be connected directly to the thread of the pipe/product that it is used with, and no change to be made to the original dimensions. Any changes to the product like Cutting of thread will void the warranty

3e. Waste Couplings:

- Only damage to the thread or breakage is covered under warranty provided the product is installed in the original dimensions. Any changes to the product like Cutting of thread will void the warranty
- Deposition /discoloration occurring during usage not covered under warranty

3f. Sinks

- Warranty applies to Sink Body in Stainless steel for any manufacturing defects and rusting
- Warranty does not apply to chip-off or fading of protective coating on under-surface of sink body.
- Warranty does not cover defects or damage caused by use of acids, abrasives, improper cleaning and lack of maintenance, mechanical damage caused during installation or usage, and scratches/dents caused by normal wear and tear
- Sink body comes with protective lamination on top surface, to be peeled off before use only after any construction work is completed

4. **Upper Parts of Concealed Bodies:** Warranty shall be void if Upper parts are not installed with the concealed body of the same make.

5. **Ceramics and Flush fittings:** Warranty will not cover below

- Colour fading due to cleaning with chemicals other than recommended cleaning agents like Viroprotek or equivalent reputed brands
- Problems arising in push buttons due to use of harsh cleaning agents (only soap water with dry cloth to be used for cleaning)
- Problems arising due to use of Cleaning agents on Plastic parts like seat covers
- Problems arising due to debris and other impurities present in the water, above the specified limits of TSS as above
- Inadequate Flushing in case of Siphonic closets if the length of the outlet connection pipe is higher than 6 meters
- Flush valve if used along with rimless wall hungs, this can lead to Splashing issues and will not be covered under warranty

6. Pressure reducer is recommended for usage in the line when installing cisterns and flushing systems to limit the pressure to the specified conditions as above

7. Seat Covers:

- Problems occurring in hydraulic function, hinges etc. on account of jets installed and application of force for closing in case of soft-close seat covers not covered under warranty.
- Seat covers should be cleaned only with mild soap and water. Cleaning agents recommended for use of cleaning ceramics and tiles are not suitable for seat covers and can result in damage to the surface
- Colour fading due to use of cleaning agents on Seat covers not covered under warranty

Parts excluded from warranty

1. Aerator used at the outlet of the faucet is a plastic part and replacement of the same is not covered under warranty.
2. Service cost for cleaning/replacement of aerator in case the water conditions are not as per specified limits will need to be borne by the consumer
3. Rubber parts except those which are internal to the spindle/cartridge/piston/flush fitting are not covered under warranty
4. In case of Sinks, Waste / Drain coupling (consisting of ABS components) and Rubber parts are not covered under warranty

Terms and Conditions

1. The warranty shall commence from the date of purchase as per invoice. The customer needs to register the warranty with the Company either by contacting its toll-free Helpline number 1800-266-2079 or by logging into the website bathsense.asianpaints.com and furnishing all the purchase and personal details as requested by the Company. Alternatively, please contact the dealer from where the purchase has been made, to register the warranty. For the warranty to be valid, its registration needs to be done within 15 (fifteen) days from the date of the purchase of the product.
2. This warranty will be effective only if the proof of purchase (i.e. original GST invoice /receipt) and /or Warranty registration document is provided with all warranty claims or requests.

3. CLAIMS AND REPAIRS

- a. For the purpose of claiming warranty, customer will have to share the registered warranty number or proof of purchase and in absence of the same the company will not be held liable for any warranty claim.
- b. Customer shall forthwith notify the Company of the claim providing full details thereof and shall set out the basis on which it believes that the company is liable in terms of the warranty. Company shall appoint authorized personnel to visit the site and assess whether the issue / product falls within the purview of the warranty. The warranty shall be void in case the customer or any third party other than the authorized personnel performs any repairs to or removes or otherwise tamper with any product, prior to such visit by the authorized personnel
4. After the Warranty period has lapsed, both the Product & Spare cost and Service Cost will be payable by the consumer
5. The company shall make its best endeavor to provide onsite warranty services but due to unavoidable/exceptional circumstances the product may be required for offsite inspection at Company's service center/Service Centre of company's authorized service associate.

6. The Company and its Authorized Service Franchisee will make unit repairs or replacements under this warranty within a reasonable period, as determined by the Company or its Authorized Service Franchisee performing the said repair or replacement.
7. It is at the option of Company to remedy any defects by repairing or replacing the products of comparable value. However, this warranty shall not apply to the parts thereof. Under no circumstances shall claims for refund be accepted under this Warranty.
8. The Company will not be held responsible for any defects or damages that may be arising from transportation, or due to improper installation alteration, accidents, misuse, or lack of proper maintenance.
9. This warranty does not include payment of and responsibility for any duty, including GST and other central taxes, state taxes or other local taxes as assessed to the parts supplied or repaired during the warranty period.
10. The warranty period will start from the date of invoice and shall automatically stand terminated upon the expiry of the requisite warranty period even if the said product has not been installed after purchase or has not been in the use for any part or whole of the warranty period for any reason whatsoever.
11. The warranty period shall not start afresh after settlement of the claim.
12. In case of products which are discontinued by the Company and the product to be replaced due to agreed defects is still under warranty, the company will have the discretion to provide another product which is equivalent in terms of commercial value.
13. In the event of any repairs/replacement of any parts of the Product, this warranty shall thereafter continue and remain in force only for the unexpired period of the original warranty of the Product. Any time consumed for the repair/replacement of parts including transit of the Product or its parts or any period during which the Product has not been used whether under warranty or otherwise shall not be excluded from the warranty period and no extension of the warranty period will be granted.
14. This warranty is not valid or effective if the unit/Products are not installed according to the instruction manual or procedure laid down by the Company and the company shall not be liable for any damage out of faulty installation.
15. Improper handling of the Products automatically terminates and nullifies this warranty. This warranty does not cover problems arising from insufficient water pressure, excessive water impurities/hardness beyond the norms of water as specified in this document or improper care and cleaning. Improper care and cleaning will void the warranty.

16. Company is not responsible for labour charges, installation or other incidental or consequential costs
17. The Company is not responsible for the cost of removal, return and/or reinstallation of the Product, except cases where Product replacement is established as necessary to resolve the complaint under warranty and carried out by company appointed technician. The company is also not liable to pay for any civil or construction work required during installation of new products or replacement / repairs of old products.
18. In the event of non-availability of product, components, or parts due to any reason whatsoever, neither Company nor its Authorized Service Franchisee or the Dealer will be held responsible or liable for any delay that may be caused to service/repair/ replacement of the product. In the event of identical model or color/color combination is not available for replacement, the Company or its Authorized Service Franchisee or its dealer will replace the definitive / available Product, at its sole discretion, with an equivalent/identical model or color.
19. The company will, at its best endeavor, make an effort to carry out repairs at the earliest within responsible period. However, the company is under no obligation to do so in a specified period.
20. Warranty does not cover claims for damage caused to product(s) during transportation or installation
21. The company at its own discretion can decide to rectify the defect with or without replacement of the parts or product.
22. This warranty does not cover any accessories external to the product.
23. After completion of warranty period, in case any defect, standard part charges will be charged from customer as per prevailing rates of the company including of any applicable / incidental charges. This will be applicable even if the product is under warranty but is used in a way other than the specified conditions of usage in this document
24. The Company will not be held responsible or liable for any special, indirect or consequential damages due to the defective product, or due to defects of any component or part thereof. However, under any circumstance whatsoever the total liability of the Company shall not exceed to actual purchase price of the Product.
25. **EXCLUSIONS:** This warranty will cover only manufacturing defects as mentioned in this document and will not cover any other defects, damages or loss arising out of factors/circumstances out of control of the Company, including but not limited to:
 - Damages caused due to mishandling of the product, incorrect installation of product /spares/accessories or if installation is not as indicated in the user manual; product is not maintained as per recommended practices for care; maintenance/repair carried out by third parties other than authorized personnel; spare parts used are not of our make; connecting, bending, or damages to product during installation
 - Use of any product in a manner inconsistent with the product instructions and/or installation manual or for any purpose other than as mentioned in the document.
 - Improper installation of product or any other components used in installation
 - Natural calamities such as earthquakes, cyclones etc.
 - Acts of God
 - Abuse or negligence by the customer
 - Damage or loss resulting from normal and customary wear and tear, such as gloss reduction, scratching or fading over time due to use or cleaning
 - Improper cleaning or cleaning with coarse cloth or cleaning practices including but not limited to the use of bleach, alkali, acid cleaners, dry (powder) cleaners or any other abrasive cleaners or the use of metal or nylon scrubbers.
 - Fading of material due to sun or chemical exposure
 - Damage due to exposure to acids, chemicals, harsh cleaners like phenyls, etc. or use of excessive force
 - Damage to the outer finish or coating of the faucets or showers caused due to exposure to Acid Fumes arising when the tiles or floors in the bathroom are cleaned with cleaning agents which contain acids or chemicals. This can cause a green colour on the products which is a result of the brass alloy (material of construction of the faucet) reacting with these acids
 - If the site condition, where the product is installed does not conform to the recommended operating conditions of products
 - Defects caused by improper use, as determined by the authorized service personnel
 - Damage to the product or any part/s during transportation.
26. **Force Majeure:** The Company shall not be responsible for any failure to perform or for any delay in performance of the terms of this warranty where the failure or delay is due to Force Majeure events/ acts of God which shall include but not be limited to any acts of natural disaster, public enemy, war, riot, act of terrorism, embargo, explosion, sabotage, flood, pandemic, epidemic or any other public health emergency, lockdowns imposed by Municipal Authorities, State or Central Governments, from whatever cause arising; enactment, promulgation or issuance of any laws, regulations, orders or decrees of any competent governmental, regulatory or judicial authority ("Force Majeure Event"). The Company shall however, perform its agreed obligations as soon as reasonably practicable following removal of the cause of the force majeure and/or its effects
27. **Limitation of Liability:** Under no circumstance shall the total liability of the Company exceed to actual purchase price of the Product.
28. If any dispute arises between the Company and the customer, in respect of this warranty, neither shall commence any court or arbitration proceedings relating to the dispute unless they have first complied through mediation process. In case of any disputes, the same is subject to the exclusive jurisdiction of the courts of Mumbai
