

## PRODUCT DESCRIPTION

Kadisco Fungicidal Paint is a specially formulated product for the areas where fungus is present or the areas which are prone to fungus growth. Its antifungal property kills all the fungus present on the masonry surface making the surface suitable for painting. It also helps prevent fungal growth once the surface is painted. Apart from its antifungal property, it also serves as a mild penetrating sealer.

## RECOMMENDED AREAS OF APPLICATION

Suitable for use on masonry, brick work or other cementitious surfaces which is affected due to fungal attack.

## TECHNICAL DATA

**Shade / Colour range** : Clear Liquid

**Specific gravity** :  $0.97 \pm 0.005$

**% Volume Solids** :  $3 \pm 0.5 \%$

**Pack Size** : 1 USG, 5 USG

**Theoretical Coverage** : Not applicable

**Practical Coverage** : Practical coverage may depend on degree of fungus growth, surface porosity and application practice.

| Drying time 30°C | Surface dry | Touch dry   | Recoatability | Hard dry       |
|------------------|-------------|-------------|---------------|----------------|
|                  | 20-30 Mins. | 40-60 Mins. | 4 hrs.        | Not applicable |

## APPLICATION DATA

**Method of application** : Brush only for better washing and penetration

**Thinner** : Municipal/Potable water only for washing tools

**Thinning ratio (by vol.)** : Apply as such

## SURFACE PREPARATION

For new surface allow the concrete surface to mature properly before washing with Fungicidal Wash.

For old surfaces where fungal growth is noticed, remove all loose plaster, dirt, dust, laitance etc by using hard bristle brush to get a clean and sound surface. Traces of grease, oil etc are to be removed by suitable method. Apply Berger Fungicidal Wash with brush liberally.

Large cracks should be filled with suitable filler.

## APPLICATIONS DETAILS

Stir the contents thoroughly before and during use, with a broad flat stirrer, using an upward lifting action.

Once surface is prepared, Apply Berger Fungicidal Wash with brush liberally if mould or fungus is present on the wall. Let it dry for recommended time before application of primer. For those surfaces, where fungal growth is a chronic problem due to various reasons, suitable measures need to be taken to eliminate the root cause of fungal growth.

## RECOMMENDED PAINT SYSTEM

As required.

*\* For detailed system recommendation based on specific requirements please contact Berger representative.*

## **STORAGE, SAFETY INFORMATION AND PRECAUTIONS**

- Do not apply at temperature below 10°C.
- Provide adequate ventilation during use
- Keep out of reach of children.
- Avoid contact with skin and eyes, wear suitable protective clothing's such as overalls, goggles, dust masks and gloves.
- Dispose in landfills only.
