KADISCO WOODGUARD

KADISCO Woodgard is a specially formulated clear or brown coloured wood preservative for the protection of timber against wood rotting fungi and wood boring beetles (including termites). Woodgard contains zinc versatate (fungicide) and cypermethrin (pyrethroid insecticide) in a blend of organic solvents and is designed to penetrate softwoods and hardwoods. Exposed, external timbers,(e.g.fencing) should be overcoated to ensure long term protection.

Preparation

All timber to be treated should be free from decay and surface contamination (dirt,paint etc.) and damage by wood boring beetles ('frass') removed. In severe cases, the need for replacement should be considered.

Application

By brush or low-pressure spray (NOT air-assisted). Woodgard should be applied at a rate of 1 litre per 4 sq. mte. If the initial absorption is less than recommended, further applications should be made after the original treatment has soaked in (after 1-2 hours).

By immersion or double vacuum. Timbers should be fully immersed for a period of 3-30 minutes. Consumption will vary depending on timber type and dimensions; typically 5-15 litres/cu.mtr. By double vacuum; typical consumption 20-25 litres/cu. mtr.

Storage

Store safely in cool conditions (away from direct sunlight etc.) Keep dipping tanks covered when not in use. Tightly re-seal container after use.

Painting

Timbers treated with woodgard can be overcoated with most conventional (solvent based) paints/varnishes. When using waterborne coatings try a test area first.

HEALTH & SAFETY

Hazard: Irritant, Xi

- ▶ Flammable, do not apply in the presence of naked flames, hot surfaces or unprotected electrical equipment.
- ▶ Wear suitable protective clothing (Coveralls), PVC gloves and face protection when using.
- ▶ Wear respiratory protective equipment and eye protection when spraying.
- ▶ Ensure adequate ventilation during use.
- ▶ When using, do not eat, drink or smoke.
- ▶ Do not contaminate water tank, rivers/streams or other watercourses.
- ▶ Wash splashes from skin and eyes immediately.
- ▶ Keep out of reach of children.
