

# ColourNext KITCHENS

## About ColourNext

ColourNext is an annual colour & decor trend forecast, the only one of its kind in India. Each year, Asian Paints collaborate with experts from different disciplines to put together a comprehensive forecast of colours, materials, textures and finishes for those who design for India. In this catalogue, we take a deeper look at how these trends can be applied to modern kitchens, the heart of our homes.

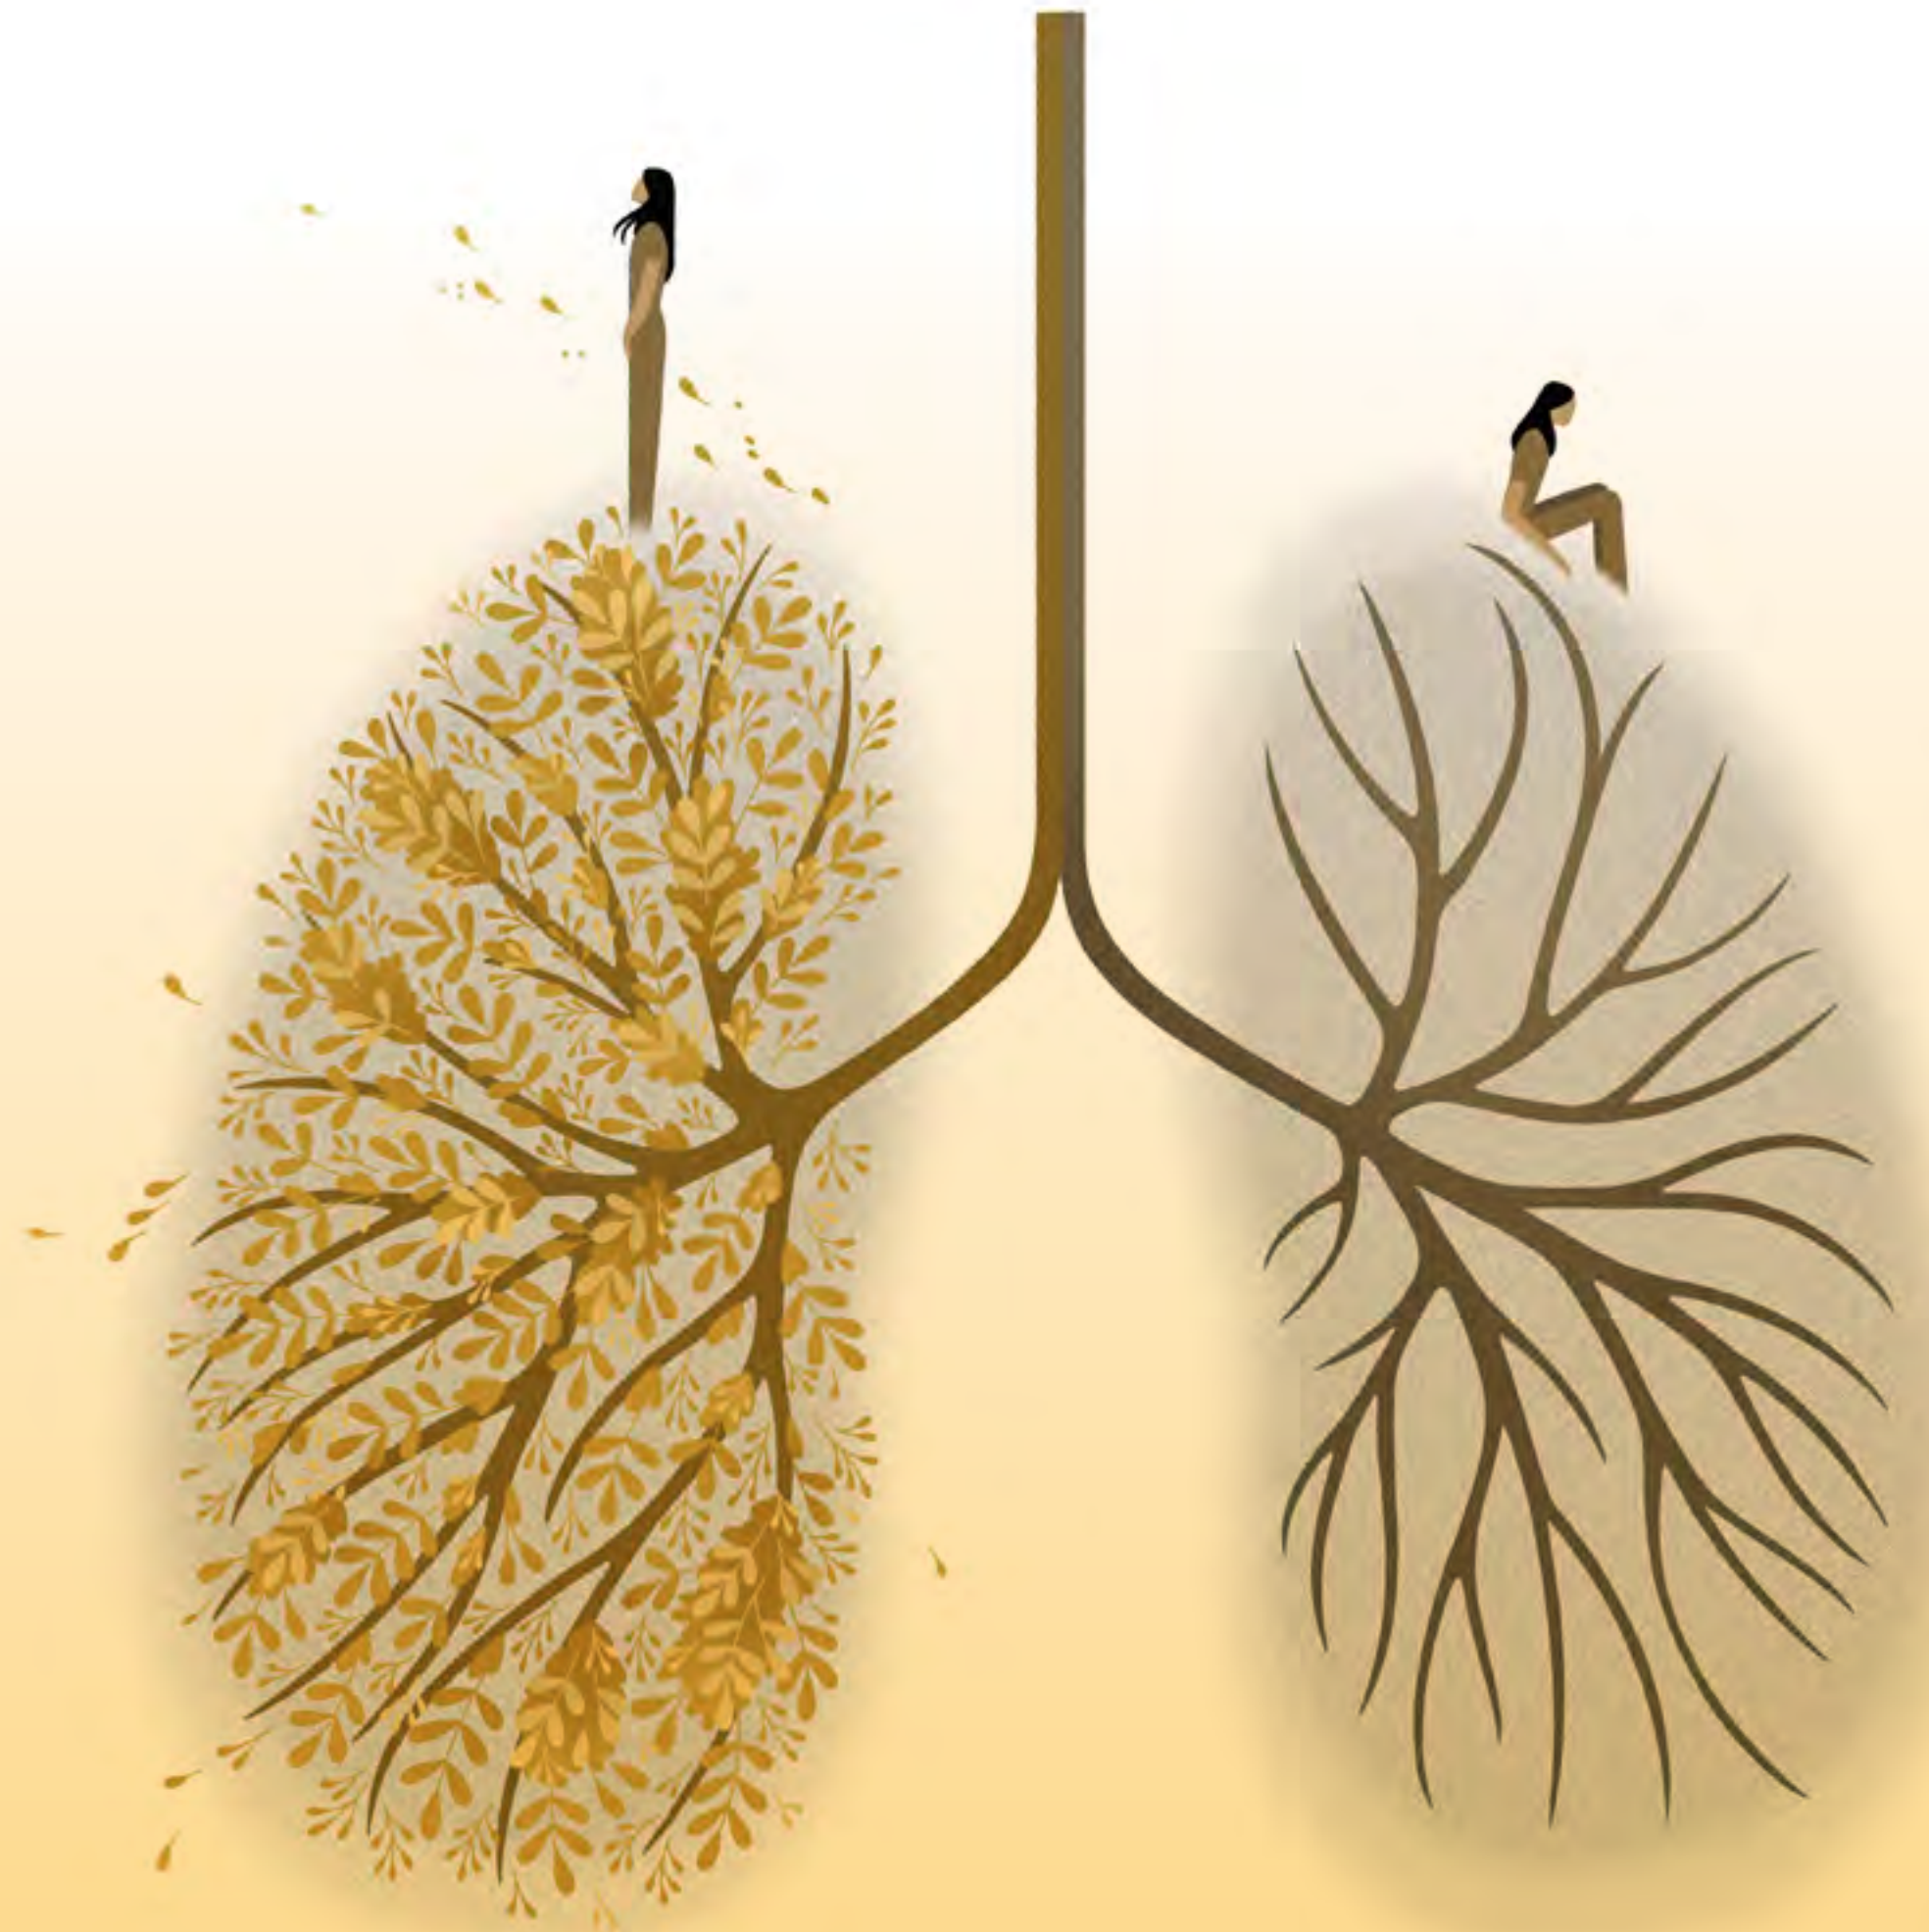

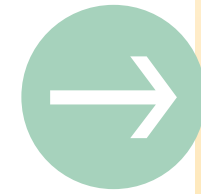

Have a look at the four trends forecasted for 2021:  
**Habitat, A Home New World, Felicity** and **Z Futures.**

# HABITAT

## Coexistence in an interconnected world

Habitat is a story of coexistence and humility — a systemic rethink of how we exist with the world around us. Humbled by the sudden pause of the past year, we begin to see the world as a network of interconnected systems — forcing us to change our habits, lifestyle, industry and economy.

# A HOME NEW WORLD

## Recalibrating the home ecosystem

How we relate to our home and workspaces has changed. Home is an entire ecosystem where worlds that were otherwise separate, now collide. A Home New World is about this change, about how we hack our spaces to serve new needs.

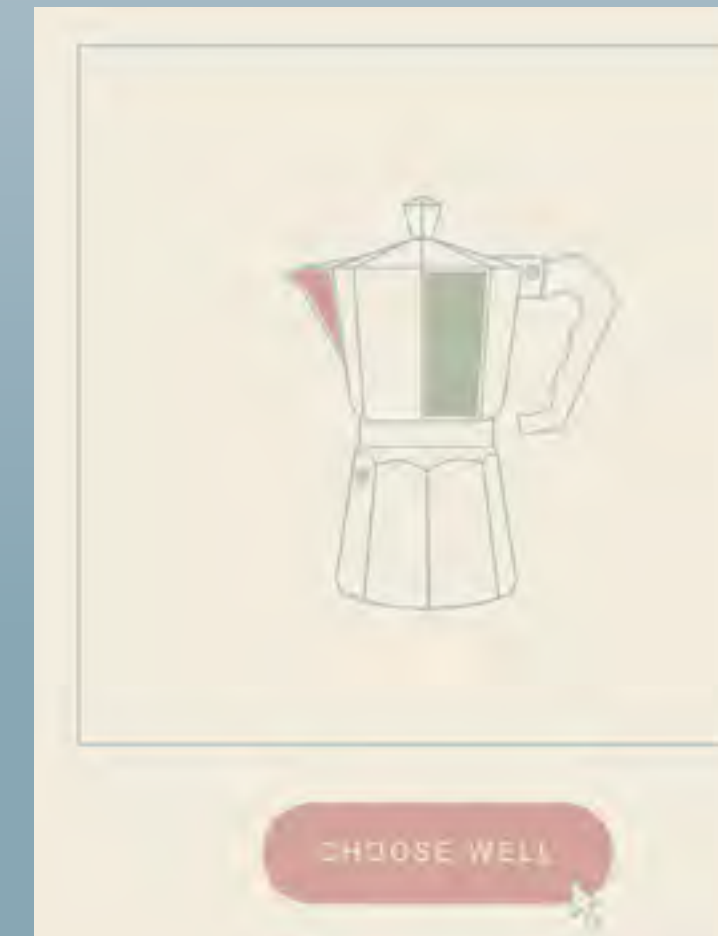

MULTIFUNCTIONAL

# Felicity

## Adding value, eliminating frills

Felicity is a conscious choice to favour real value over flaunt value. Indulgence takes a backseat as we choose things that serve a purpose, are beautiful and provide us a lasting sense of comfort.

# Z FUTURES

## Coming of age of the Gen WE

Z Futures is inspired by this self-assured, liberal and fluid attitude of Gen Z – a youthful spirit of adventure mixed with domestic cosy. Fluid spaces, community stories, products designed for good and objects that display pride in one's roots.

# Content

This book is a quick guide on ColourNext trends and how to put them together in a kitchen space. We briefly introduce each trend's colour palette, help you create your own Asian Paints kitchen ensemble using state-of-the-art kitchen modules and appliances by Sleek and enhance it with a range of colours, textures, wallpapers, dining tables, flooring and lighting also by Asian Paints.

KITCHENS • WARDROBES

A subsidiary of Asian Paints, Sleek is India's largest modular kitchens brand. Pioneers in modular kitchens for 25 years now, Sleek has been crafting precise, efficient and consistently durable kitchen solutions that are as intuitive as they are aesthetically appealing. The brand extends this understanding to wardrobes, and presents a variety of storage and display systems to organise and showcase your style — in style.

# CHERISH

## Colour of the year

Nurturing, humble and fresh, **Ivy League 7585** restores that sense of balance which we dearly seek. A colour that's neither too warm nor cold, its mint green nudges growth while a hint of blue heals us and revitalises our mood. **Ivy League** brings our restless mind to a place of hope.

# HABITAT

## The Colour Palette

The palette for Habitat stems from a state of humility and seeking a balance with nature. The warm intermediate spectrum represents compassion, while a subtle grey overlay gives it a mature tone. Absorbing shades of brown, olive, murky yellow and dirty blue represent nature and its elements.

# A HOME NEW WORLD

## The Colour Palette

To counter the frenzy of everyday WFH life, the cool colour palette of A Home New World uplifts your space and your mood. Pops of energetic colours inspire you in small doses, giving you a break from the routine. Versatile neutrals give you positive respite while making sure you're still getting things done.

# Felicity

## The Colour Palette

The palette of Felicity is timelessly charming – colours that have endured over a long period of time, yet unwaveringly appeal to us. Classic colours like dark green and brown that are intense are balanced by pale dye-like natural colours. Muted grey-blue, soft pinkish beige and sage green are inspired by mid-century graphics. Neutral and calm, white holds the palette together.

# Z FUTURES

## The Colour Palette

Unusual contrasts express the inclusive and tolerant nature of Gen Z. Light and airy shades when juxtaposed with dominant orange, bottle green and a dark greyish green bring out the idea of “assembled oddities”, a quintessential Gen Z quality.
