Stylus

STYLUS

The warm sophistication of veneer finish enriches the outside as well as the inside of the Sleek Stylus kitchen. The beauty of this kitchen lies in its unique details - White Nova Pro drawers, with veneer sides that match the veneer gola profile outside. Base cabinets with no back so that cleaning is easy and efficient. Front edge banding of the cabinet frame, made to match the colour and sheen of the shutters. Inclined PU shutters with glossy finish in the front and matt finish at the back is what makes Stylus truly stylish. That's not all, the Sleek Stylus kitchen boasts of imported soft-closing drawers and electronic lift-up systems, and the most advanced appliances from Europe.

Sleek Stylus is a sophisticated blend of, the warmth of wood veneer and the sheen of PU to present a minimalistic European design.
